

CRAFT CLUB

December/2022

In a world where we are constantly immersed in social media and staring at screens, crafts are a great way to rest the mind, reconnect with oneself and rescue ancestral knowledge. These days crafts are a way to escape the digital world, and doing it with others is even better. For this reason, we want to create the City College Craft Club.

This club aims to organise meetings and gather City College students interested in crafts (e.g. embroidery, crochet, and knitting). The plan is to meet once a week, during the afternoon, to exchange ideas, work on personal projects and eventually run projects together.

OBJECTIVES

- Bring together City College students interested in crafts to produce together.
- Carry out voluntary work for institutions and in conjunction with other City College clubs.

POSSIBLE PROJECTS

- Produce items together to sell in the Christmas or Halloween Bazar with the Sunrise Club.
- Produce together voluntarily patterns provided by institutions for different causes. Some charities accept crochet and knitting donations for mastectomy breast prostheses, for example.
(<https://thecrochetcrowd.com/see-a-need-fill-a-need-awesome-breastforms/>)
- Produce scarves and blankets to donate to institutions and homeless people in the city.
